

### **Airnoise Button Option:**

A Palisades resident finds the “Airnoise button” a more convenient and faster way to register complaints than having to log on to a computer, especially early in the morning or late at night. She provides the following description of the service.

1. A free subscription allows you to file 30 complaints a month through their website (and soon through Apple & Android cellphone apps). [Their website is much more user friendly than the official website]
2. A \$5/month subscription allows you to file unlimited complaints a month through their website (and soon through Apple & Android cellphone apps).
3. A \$25 “button” purchase plus a \$5/month subscription allows you to file unlimited complaints a month using either the button or their website (and soon the cellphone apps) [The button is good for about 2500 complaints before it needs to be replaced.]

More information can be found on the website: [airnoise.io](http://airnoise.io)
